A Lesson In Colors

BROWN SLURS BLACK, RESULT PINK SLIP

Tacoma's Commissioner of Parks Wilfred G. Brown stirred the community color pot with his May 22 remarks that the only good black people would be that of "busload of niggers that went over the cliff..."

Monday's Metropolitan Park Board meeting was jammed with indignant citizens of all racial background demanding the removal of Commissioner Brown. More than 20 speakers, representing the Tacoma City Council and a dozen community and governmental organizations spoke at the meeting, all urging the removal of Brown.

Besides the Minority Concerns Task Force and City Council, organizations demanding Brown's ouster included the city Human Relations Commission, Metropolitan Development Corp., Tacoma Ministerial Alliance, Model Cities Executive Board, Tacoma Area Urban Coalition, Tacoma Advisory Council of the State Human Rights Commission, Asian Concern Task Force, Municipal League of Tacoma, Tacoma Urban League, and the Mexican American League.

No one in the audience spoke favoring Brown.

I SHALL PASS THIS WAY BUT ONCE THEREFORE ANY GOOD THAT I CAN DO OR ANY KINDNESS THAT I CAN SHOW LET ME DO IT NOW FOR I SHALL NOT PASS THIS WAY AGAIN.

This week I would like to quote from Vernon Jordan's column, To Be Equal:

TAXES AID INEQUALITY
BY Vernon E. Jordan, Jr.

Death and taxes are the two elements of human life that seem to be permanent. Not much can be done about the first, but the system of taxation can be altered to help bring about a more equitable society. The way it stands now, the tax system is a considerable part of the structure of inequality in American life.

And that inequality could get a lot worse if something like the proposed "value added tax" ever goes into effect. This would place a tax on manufactured products at each stage of their development—in effect, a national sales tax since it would be passed on to the consumer.

This is what is known as a regressive tax—a tax that everybody pays at the same rate. Most of the taxes we pay are regressive taxes in that they are not pegged to income. Income taxes that tax lower incomes at lower rates and progress up the scale to the point where higher-income people pay higher tax rates help equalize the distribution of dollars available to families in the society. Until our entire tax structure becomes far more progressive than it is, moderate-income families will bear an excessive burden of the costs of running the country.

The majority of local taxes are regressive. A state or city with a sales tax doesn't scale that tax to income. Everybody pays the same five or six percent of the cost of the taxed item. This means that porr people pay a much higher percentage of their incomes in taxes than do the rich, since a much higher part of their smaller incomes goes for the purchase of essentials. The federal social security tax is also regressive since it is a flat rate on the first $9,000 of income. So people who make more than that don't pay the tax on their excess income.

Then there are the loopholes. Salaried working people can't escape taxes their better-off neighbors skip. Business and professional expenses and entertaining are deductible. Homeowners deduct mortgage interest payments and property taxes but apartment renters are denied that escape-hatch. Although their landlord deducts mortgage costs and property taxes from his taxes, his tenants can't deduct that part of their rent that goes to paying those costs.

Wealthy investors profit from these unfair tax arrangements. Purchasers of municipal bonds don't pay any taxes at all on their dividends, a situation that cost the federal government more than $2 billion in lost taxes last year, money that had to be made up in higher rates for the rest of us. Profits from the sale of stock are taxed at 25 percent instead of their ordinary income tax rate, which is often much higher. Why should income derived from stock speculation be treated more favorably than income derived from salary?

Recent figures released by the Internal Revenue Service reveals that many rich people still pay less income tax than do poor people. Some 18,000 wealthy individuals paid an average of only four percent of their incomes in income tax, while mor than 3,000 of them showed a loss for tax purposes while their tax-free income amounted to almost $200 million.

And that's just the beginning. We haven't even begun to look into the vast network of subsidies to individuals and corporations that benefit those who need help least. While balck farm workers are driven off the land or labor for semi-starvation wages, wealthy farm corporations reap huge sums from the government and then, when they mechanize, throwing farm workers out of work, they get tax credits for depreciation while the poor can't even get decent welfare allotments.

MUHAMMAD ALI SHORT-STOPS SEATTLE

When Muhammad Ali flew through Sea-Tac International Airport, prior to his fight with Chuvalo in Vancouver B.C., fans surrounded him.

Among admirers was Port of Seattle's Aviation Department stenographer, Lois Mahomes, 1715 31st Ave., Seattle, pictured right. The Champ spotted Lois in her pretty bright-red suit and asked, "Who do you fly for?'

Lois responded, "For the Port of Seattle." Inspired, Ali created the following poem..."Ah...you are on the ground, better stick around, where you can be found."

Director of Aviation, Donald G. Shay's secretary Kathryn Shehane commented, "Not exactly Robert Frost, but then Robert Frost couldn't skip rope like Ali, either."

Also pictured, to assist in the crowd control, is Sea-Tac police officer Elmo Williams, 3522 So. Asotin St., Tacoma.

Y.E.S. REPORTER by Debra Ross

Jobs are not easy to come by in this day and age. If it's hard for older well trained people to find employment, surely it will be hard for the youth. For this reason the youth should be aware of these important points:

Dressing for interviews; dress appropriate, not all sloppy and barefooted. Be on time for interviews; don't be late this may hender you from getting the job. Know something about the job you are going to be interviewed for; be prepared this may help you.

The Youth Employment Service was formed to help young people find summer employment, because we know its hard for youth to find jobs.

It also was to give a better adaption to a business like atmosphere to the youth involved with this program. So, you see the Y.E.S. program is very meaningful and the staff means to do their job well.

The youth are part of the community, so come on community let's all get involved and hire a youth for the summer. The Y.E.S. office can be contacted by calling MA7-6178.

Federal Agencies Examined By Civil Rights Commission

SEATTLE, WASHINGTON—Minority employment in Federal agencies in the State of Washington was examined by the Washington Advisory Committee to the U.S. Commission on Civil Rights, June 2-3, Carl Maxey, chairman of the Committee.

The meeting, which was open to the public, was held in the auditorium of the Main Library, 4th and Madison, Seattle. Sessions began at 9 a.m. and convened at 5:30 p.m.

According to Maxey, a preliminary investigation by the Committee has shown that "there is a definite need for constructive utilization of minorities in the Federal Government in the State of Washington."

In addition to a review of the overall minority participation, the Committee attempted to determine the effectiveness of various Federal programs, such as affirmative action, the 16-point program for the Spanish speaking, and recruitment.

"The Committee is interested in determing why programs, as they are currently designed, are not reaching people they were intended to serve," Maxey said.

Among those invited to appear before the Committee are representatives of the Department of Commerce, the Department of Agriculture, the Civil Service Commission and the Department of the Navy.

The Committee heard statements by concerned members of the minority community.

In addition to Mr. Maxey, other members of the Committee are Samuel W. Tarshis, Seattle, Vice Chairman; C. Raymond Merriweather, Belleview; Hon. Wilbur G. Hallauer, Oroville; Alberto G. Delvalle, Kenneth A. MacDonald, Josephy McGavick, and Ray Moore, Seattle; and Fred T. Haley, Tacoma.

The U.S. Commission on Civil Rights is an independent, bipartisan, factfinding agency created by Congress in 1957. Rev. Theodore M. Hesburgh, C.S.C., president of the University of Notre Dame, is chairman of the Commission. John A. Buggs is staff director-designate.

The Washington Committee is one of 51 such units whose members serve without compensation to provide the Commission with information concerning civil rights activities in their communities and to disseminate information about Federal laws and programs.

NEW HOPE FOR TROUBLED PARENT

A local chapter of Parents Anonymous is starting in Pierce County. Parents Anonymous (PA) is a self-help group for parents concerned about how they handle their kids.

Parents who are concerned about times that they take their problems out on their children can get help through PA. Parents may feel that they either abuse their children (physically or verbally) or neglect some of the children's needs.

Parents meet with each other and find immediate help and understanding from others, who can assist them to find solutions to common problems.

PA was started in California by Jolly K., mother of four and ex child abuser, who helped herself through the group. Now there are several chapters around the country.

Jolly will meet privately with parents interested in joining a local chapter. Call SK2-3214 or 848-4154 for more information on meeting times and places.

MAST Rescue Crew Fly Missions Here

FORT LEWIS, WASH.--MAST helicopter crews here are flying missions from the tip to the toe of the nation's second highest mountain.

One recent flight lifted an injured climber off a ridge at the 12,000-foot level of Mount Rainier, and another rescued two girls marooned on a sandbar of the Cowlitz River after their canoe capsized. The bar was on the upper river where the Cowlitz plunges through the footaills of the 14,412-foot mountain, second highest in the 48 contiguous states.

CW2 John Ruhl piloted the high flight, CW2 Roger Santo the low one.

About 1,100 Cadets Set For ROTC Course

FORT LEWIS, WASH.--The first cycle of cadets who will be mastering leadership skills in this years Sixth Army Advanced ROTC Camp begin arriving here this weekend.

About 1,100 cadets are scheduled to take the six week training course that leads to commissions as second lieutenants following college graduation.

Some 40 schools in 12 western states and Alaska and Hawaii will send cadets, most of them juniors but some seniors. A few will come from schools in the eastern portion of the country.

The first cycle of training will start Monday, the second the following week. The camp area is located at North Fort Lewis.

Brigadier General William L. Webb, Jr., deputy Fort Ord, California, commanding general who will command this years camp, said training will "maximize the hands-on-the-equipment type and minimizw dull, old-fashioned lectures."

Most of Fort Lewis' major units will be involved in supporting the camp and training, with Colonel William P. Junk, 2nd Brigade, 9th Infantry Division commanding officer, coordination the support iffort. More than half of the 2,158 officers and enlisted men in the support force, and a lot of equipment, will come from the 212th Artillery Group and 3rd Armored Cavalry Regiment.

A two-day leadership exercise will culminate the field training. Graduation ceremonies are set for July 20 and July 27.

FORT LEWIS, WA.--The 9th Infantry Division will soon have 22 "third lieutenants" in its ranks.

The group includes 14 upper classmen from the U.S. Military Academy at West Point and eight ROTC cadets who have completed summer camp training.

They will spend four weeks performing junior officer duties in division units, the 1st Signal Group, and the 864th Engineer Battalion.

In all, 1,050 cadets of the 1973 and 1974 classes from the Academy are ticketed for the special training at stateside Army posts and in Europe, Panama, Alaska, and Hawaii.

Purpose of the assignments is to give the cadets first-hand experience in the duties, responsibilities, and living conditions of junior officers.

Rummage Sale

FORT LEWIS, WASH.--Smart buyers here this weekend will be helping patients at a camp for the mentally retarded.

Proceeds from a rummage sale set for 10 to 4 Saturday and Sunday near the Bowlarena on Liggett Ave. will further the 513th Maintenance Company's support of Camp Oak Patch.

The State has promised to add three dollars for each dollar raised in the sale.

Captain William O. Zorka, 513th commander, said Camp Oak Patch, located near Bremerton, has about 50 patients from age 14 and up.

He said the state provides $6 a day per person support, but needs are greater than that. Contrubutions have to make up the difference.

"Because it's not a children's camp, sponsors are harder to find," Capt. Zorka explained.

Three soldiers from the 513th, Specialist 5 Richard Harris, Spec. 4 William Nivala, and Private First Class Daniel Frankum, recently spent a weekend working at the camp.

All sorts of things--from baby cribs and tape recorders to refrigerators and television sets--will be offered at the sale.

Retirement Party For Walter White

The Greater Tacoma Bowling Association recently held a retirment party for Mr. Ernie Stowe, former secretary of the GTBA for over 24 years. In attendance at the party which was held at the Top of the Ocean in Tacoma were several hundred friends, the Mayor of Tacoma, bowling officials from across the United States and relatives.

Shown above is Mayor Johnson of Tacoma congragulating Walter "Tiger" White on his appointment to the Greater Tacoma Bowling Association Board od Directors.

On the right is Dick Turner, Board member who sponsored Mr. White. White is a retired Army NCO, and sports a mere 190 average, he resides at 11015 Briar RD. S.W. with hes wife Margaret and Four children, Wellington, Wilhemenis, Wayne and Willette.

Fort Lewis Readies For First Group Of Summer Trainees

FORT LEWIS, WA.-- The first large continent of the nearly 18,000 Army Reservists, ROTC cadets and National Guardsmen who will train at Ft. Lewis or its sub-installations this summer checks into camp this weekend.

About 600 ROTC cadets from schools in the Western United States begin six weeks of leadership training here Monday to prepare them for commissions as Army second lieutenants.

A second cycle of cadets will arrive a week later, boosting the student population to around 1,100.

Also due this weekend is one of the Army's unique outfits--the Washington National Guard's Olympia-headquartered 116th Support Center.

Components of the unit range from the 144th Transportation Battalion--a port operation and water transport unit--to trucking companies, a band, and infantry battalion.

The 144th will train at Indian Island near Port Townsend, the truck units and band here, and the infantry force in Utah.

In all nearly 11,000 troops will do their two-week active duty training stint at Fort Lewis, and about 4,000 at the Yakima Firing Center.

The Washington National Guard's 81st Infantry Brigade will split its 3,500-man force in two groups for field exercises at Yakima. The first group rolls in this weekend, the second June 17.

Oregon's National Guard sends the 41st Infantry Brigade to Fort Lewis August 12, the last major contingent of the summer training season.

Along with these large units, dozens of smaller groups will train at Fort Lewis, Yakima, Indian Island and Fort Lawson.

One of these, an Army Reserve chemical company from Dgden, Utah, with 43 men, led off the Fort Lewis action June 3, and units from Vancouver, Washington, and Denver, Colorado, will wrap it all up September 2.
